Melbourne, FL 32904

Operation Joshua is a local initiative we started here in Brevard and our goal is to motivate believers to “Be Strong and Courageous” for the faith and in the public square and in politics. We have done this through our conferences addressing topics such as: evangelism, spiritual warfare, resisting “Trans Ideology” for kids, The Fatherless Epidemic, Understanding our Biblical roots as a nation, etc. Our main goal is to help Churches and Christians recognize that we have for several decades now, abdicated and ignored our stewardship duty to be salt and light and to have an impact on our nation and its policies. We hope to change this.

1. Biblically, we are not called to be isolationists or religiously neutral when it comes to politics. We are meant to be on the front lines and our past posture and lack of sowing into this area is in part why we are seeing a country moving further and further from its Biblical world view in its policies.
2. The Bible and history is clear that should we choose to take up our mantle, we can change this by moving to a position of Spiritual and natural engagement.

I will also touch on the initiative we are launching here in Brevard with Saturate USA. An initiative that partners local believers and their churches for purposes of delivering the Gospel message to each household in Brevard. Here is a brief video of that effort.
